Answer: People working together

5. Gutenberg's printing press is an example of an invention that had a number of unanticipated effects. Which two effects were caused by the printing press?

Answer:

- The invention of the telescope
 - The demand for spectacles
-

6. When Alexander Graham Bell invented the telephone to listen to live orchestra music, he most likely had no idea that his invention would lead to...

Answer: The way we use phones today

7. Read this excerpt. The author's purpose for including this part is to...

Answer: Provide a scenario to help the reader understand a concept.

8. This selection can be best described as informational nonfiction because it...

Answer: Gives facts and details about a specific topic.

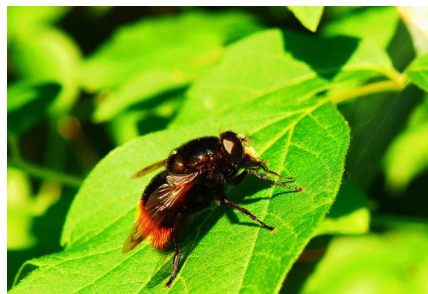

9. Read this excerpt. Choose the one sentence that explains what Johnson means by "adjacent possible".

Answer: Basically, when someone comes up with a new idea, technology, or platform of some kind, it makes a whole other set of new ideas imaginable for the first time.

10. Choose the one sentence from the excerpt that supports Steven Johnson's argument that there are other heroes who should receive credit for their innovations.

Answer: It is people like John Leal, John Snow, and Ellis Chesbrough, who helped create the fact that we can now drink water from a tap and not worry about dying of cholera 48 hours later.

Inside the Great Insect Die Off Part 1/Losing the Not Cute and Cuddly-part1 /A different dimension of loss-part 1

Inside the Great Insect Die-Off-Part 1

by Jacob Mikanowski

Scientists are trying desperately to save insects from factors that are threatening their extinction.

Additional Credits

[Credit for answers: SmartSnowy on Quizlet]

[Picture description: Picture of a bug on a leaf]

RATE 3 STARS

1. The selection is mainly about scientists'

Answer: Concern about the extinction of various invertebrates

g

2. According to what you have read, the coral reefs

Answer: Are becoming endangered and extinct.

3. Think about your answer to your previous question and read this excerpt. Which two factors do scientists cite as the reason why coral reefs are being impacted?

Answer:

- Climate Change
 - Ocean acidification
-

4. From what you have read, you can conclude that animal species that live in coral reefs

Answer: Are at risk of becoming extinct

5. Choose the sentence from the excerpt that is an example of the figurative language metaphor.

Answer: Looked at from the point of view of species diversity, we mammals are just a handful of mice on a globe full of beetles.

6. Entomologist Terry Erwin states... Choose the two sentences from the excerpt that confirms why Erwin makes this statement.

Answer:

- The true scope of the world's biodiversity is one of the biggest and most intractable problems in science
 - There's no quick fix or calculation that can solve it, just a steady drip of new observations of new beetles and new flies, accumulating toward a fathomless goal.
-

7. Read these two excerpts. Which two techniques does the author use to support his points?

Answer:

- Using statistics about invertebrates
 - Connecting to reason with comparisons
-

8. Put the steps that Terry Erwin took to determine how many species live on an acre in the Panama rainforest in order, from first to last.

Answer:

1. Erwin covered a tree in a sheeting
 2. Erwin fogged the tree with insecticide
 3. Erwin waited for the sheeting to be filled with bugs
 4. Erwin sorted and counted all the bugs.
-

9. In this selection, the author compares his interpretation of ant species to an expert's interpretation. What does this comparison reveal to the reader?

Answer: Each insect is truly different from one another.

10. Based on what you have read, what two things do scientists need to establish in order to determine if we are currently experiencing a "sixth extinction"?

Answer:

- The rate species are vanishing
 - The rate species will go extinct without human activity
-

11. Read the excerpt. Which of the following sentences best summarizes the excerpt?

Answer: Deforestation is impacting the survival of insect species in the world.

[Credit for Answer: Milfsarehottt on Wattpad]

12. In this excerpt, the author uses parentheses to

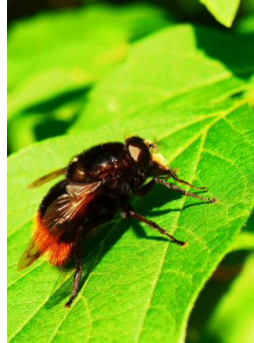

Answer: Describe an example of a scientific concept.

[Credit for Answer: Milfsarehottt on Wattpad]

13. Read the excerpt. The tone of this excerpt can be described as

Answer: Advising.

Answer: As glaciers retreat from India to Greenland, biodiversity is being lost.

11. Read these two...

Answer: worried

12. Read this excerpt...

Answer: If Greenland's biodiversity...

No correction, I just wanted to mention how nice this community is because everyone is trying to help each other (for example: changing the names of the stories to the newly updated names so that the stories are easier to find for others) and no one is sabotaging this document. I just want to say that I appreciate all of this, guys.
