2. Read this excerpt from the selection and one from Part 1 of this text. Together, these excerpts show that...

Answer: Art forgers are becoming more sophisticated in their efforts to produce fool-proof forgeries.

3. In this part of the selection about forensic scientist James Martin, the author uses questions to...

Answer: Draw readers into Martin's analytical thought process.

4. According to the author, Martin's tests can "reveal if a painting is not by Da Vinci or Modigliani, but they are unable to affirm authorship, except in rare cases." In other words,...

Answer: It is easier to identify a painting as a fake than it is to prove the artist as claimed created the work.

5. Read this excerpt from the end of the selection. What question does the ending intend to leave the reader with?

Answer: Is the perfect forgery even possible?

6. The author's tone in this selection is best described as...

Answer: Objective and direct.

7. Based on this excerpt, you best describe Martin as...

Answer: Meticulous.

8. The author of this selection refers to the "litigiousness" of the art market. Which detail from the text best supports this claim?

Answer: ...A gallery that was sued by 10 buyers over the authenticity of the paintings it sold-

9. What is the significance of paint to Martin's work?

Answer: Sampling paint from artwork reveals whether the pigments used were even available to the original artist at the time.

10. The Knoedler, an established gallery in New York, sold a painting for \$17 million that Martin determined was a fake. What later led Knoedler to hire experts to attack Martin's credibility in court?

Answer: Buyers suing the gallery for other forgeries hired Martin to test their paintings--all forgeries, and likely to financially devastate the gallery.

Taking It to the Extreme

[Picture description: A picture of a person running on a road that's on the side of a mountain.]

RATE 5 STARS

1. Which of the following quotes from the selection captures the central idea?

Answer: "It's good to get out of our comfort bubbles and know what we're capable of."

2. Which two statements best explain why Jessica Goldman prefers to run solo?

Answer:

- She does not want to be limited by what others expect of her.
 - She can put her needs first and go at her own pace.
-

3. Ultra runners Goldman and Carlson have similar training strategies. What is it?

Answer: They sign up for races they know they are not ready for.

4. This selection explains that many ocean rowers quit when all they see is "360 degrees of just horizon." This means that rowers often turn back because...

Answer: They are unable to see land in any direction, just sea and sky.

5. Jessica Watson was on a mission when she sailed around the world solo. Based on this selection, what was it?

Answer: She wanted to defy people's stereotypical ideas of girls.

6. The word "endurance" is used to describe an athletic pursuit that takes place. . .

Answer: Over a prolonged period of time.

7. Bryce Carlson rowed across the north Atlantic Ocean in record time. Which two details did he record in a diary on a daily basis?

Answer: Biggest challenge that day and how he handled it

8. Endurance athlete Carlson uses the word "wanderlust" to describe the...

Answer: Sense of endurance that takes endurance athletes to different parts of the world.

9. Which statement best summarizes the idea expressed in this excerpt?

Answer: Setting goals is important, but staying connected to the present moment is a priority.

10. Which statement below would the author most likely agree with?

Answer: Endurance athletes contend with overwhelming physical and emotional challenges.

11. Choose the two sentences in the excerpt that provide evidence that endurance athletes might be "made of tougher stuff".

Answer: Diana Nyad was the first person...
Before her 91 day run...

Brill's Ultimate Deception/Miss Brill

[Credit for answers: JhaNea_Shelby on Quizlet]

[Picture description: A picture of a woman in a red dress with a ferret on her shoulders.]

RATE 5 STARS

1. This selection's theme can best be described as the...

Answer: Pain of loneliness.

2. Choose the sentence from the excerpt that contains the figure of speech called personification.

Answer: "What has been happening to me?" said the sad little eyes.

3. How does the mood shift from the first excerpt to the second?

Answer: From joyful to melancholy

4. The boy and girl view Ms.Brill with...

Answer: Disdain.

5. Based on the two excerpts from this selection, what symbol does the fur stole most likely represent?

Answer: Miss Brill's youth

6. What does Ms.Brill focus on the most when she is observing other people?

Answer: Clothes and colors

7. Miss Brill tells the old, invalid gentleman that she is...

Answer: An actress.

8. How does the "gentlemen in grey" respond to the woman wearing the "ermine toque"?

Answer: He lit a cigarette and walked away from her.

9. Miss Brill thinks she and the other people she observes are...

Answer: Actors in a play.

10. In this excerpt, the author uses descriptive details to compare...

Answer: The old people on the bench to the little children.

11. Which sentence from selection reveals the turning point when Miss Brill realizes her perception of herself is unrealistic?

Answer: "Why does she always come here—who wants her?"

Goals of a Free Society

[Credit for answers: JaylaM1127 on Quizlet]

[Picture description: Picture of an old guy in black and white (President Eisenhower)]

RATE 5 STARS

1. Eisenhower's address mainly

Answer: Outlines the challenges the nation will face in the future.

2. Eisenhower provides evidence that America had undergone a technological revolution. What is it?

Answer: The vast increase in the amount of research conducted using electronic computers

3. The first is from Eisenhower's speech. The second is from a speech given in 1963 by his successor, President John F. Kennedy. Both reflect on the nature of hostilities between the U.S. and Soviet Union. What is the tone of each excerpt?

Answer: Kennedy is more optimistic about relations with the Soviet Union than Eisenhower.

4. Eisenhower notes that "threats, new in kind or degree, constantly arise". What is one threat he cites and where does the threat originate?

Answer: The intellectual compromise of universities due to the high level of government-funded research.

5. To what effort does Eisenhower refer when he states, "I confess that I lay down my official responsibilities in this field with a sense of disappointment?"

Answer: Peaceful, mutual disarmament

6. Based on this excerpt, you can tell that Eisenhower was a supporter of which two of the following ideals?

Answer: Equality and compassion

7. In his speech, Eisenhower notes there is certainty that America will continue to face crises both foreign and domestic, but he cautions against a "recurring temptation". What is it?

Answer: Out sized increases in defense spending

8. When he mentions the "military-industrial complex" Eisenhower is referring to

Answer: The combination of a permanent arms industry and a large standing army

9. In this excerpt, what is Eisenhower's concern in the establishment of what he terms "the military-industrial complex"?

Answer: Its influence on the government could endanger democratic processes

10. What does this excerpt tell you about the years of Eisenhower's presidency?

Answer: There had been military buildup unprecedented in American history

11. Choose the sentence in this excerpt that gives a hr best evidence...

Answer: "But now we can no longer risk.."

[Credit for answer: lillian1marie on Wattpad]

12. According to Eisenhower, "good judgement seeks"...

Answer: Balance and progress

[Credit for answer: lillian1marie on Wattpad]

13. How does Eisenhower characterize his relationship with congress

Answer: productive

[Credit for answer: SaihArA_CHAn27 on Wattpad]

Paleontologists' New Model

[Credit for answers: JhaNea_Shelby on Quizlet]

[Picture description: A picture of a reddish brown dinosaur with a turtle head]

RATE 5 STARS

1. Which of the following statements conveys the central idea of this selection?

Answer: Paleontologists are reconstructing dinosaur species to learn how they looked and lived in the past.

2. The author explains that the patterns on animals' skin are due to countershading. Animals do this to...

Answer: Avoid predators.

3. Think about your answer to the previous question. Which sentence from the selection supports that answer?

Answer: It helps an animal blend into the landscape by making it appear less three-dimensional to the predators.

4. Choose the sentence from this excerpt that describes what Vinther and his team learned about the Psittacosaurus.

Answer: The countershading told Vinther's team that Psittacosaurus lived in a closed light environment, such as under a forest canopy.

5. The author's tone in this sentence is both...

Answer: Informative and sarcastic.

6. When the author describes the reconstruction of the Psittacosaurus, you can picture how the...

Answer: Exhibit and dinosaur look.

7. Based on the selection, the "highly pigmented clusters of scales" on the Psittacosaurus is an example of...

Answer: Countershading.

8. Some paleontologists believe that parrots may have evolved from Psittacosaurus. Which sentence from the selection supports the opposite claim?

Answer: "If this parrot-like musculature were to arise in one species, you would expect to see evidence for it elsewhere in the lineage--we don't."

9. If a fossil shows an animal had a dark back and a pale stomach, then it most likely lived in...

Answer: A grassland.

10. Put these steps to describe the reconstruction of the Psittacosaurus in order.

Answer:

1. Vinther's team fired a laser to highlight fluorescent materials in the dinosaur scales.
 2. Vinther's team used an electron microscope to confirm the presence of melanosomes.
 3. Vinther's team created a three-dimensional model.
 4. Vinther's team and Robert Nicholls reconstructed the dinosaur.

Dancing with Hope/Prima Ballerinas/Leaping into Fame

[Credit for answers: kaybae_95 on Quizlet]

RATE 4 STARS

1. What is the main idea of this selection?

Answer: Some dancers have to overcome obstacles, prejudice, and even tragedy in order to fulfill their dreams.

2. What evidence does the author give to support the statement that Copeland did not always get along with her mother?

Answer: Copeland filed for emancipation from her mother.

3. If this excerpt on DePrince became part of an autobiography, how would it be different?

Answer: It would delve more into DePrince's feelings and struggles as an orphan.

4. Because she was of Hispanic descent, Cisneros' teachers often

Answer: Made her put on make-up to lighten her skin.

5. Put the following events that reflect the history of ballet in the correct order, starting with the earliest.

Answer:

1. Catherine de Medici, wife of King Henry II, supports ballet financially in the French Court.

2. King Louis XIV performs many ballet roles, including that of the Sun King.

3. Charles Didelot invents a flying machine that lifts ballerinas in the air with wires.

4. Anna Pavlova dances en pointe for the Imperial Russian ballet.

6. What is one reason Copeland could be described as a "poppy in a field of daffodils"?

Answer: She is very short in height for a ballerina.

7. Which of the following contributed to Evelyn Cisneros' interest in ballet?

Answer: Her mother encouraged her to take a ballet class because she was so shy.

8. Modern pointe shoes have which of the two following characteristics?

Answer:

- They are made of satin layers stiffened with glue.

- They have rigid, box-like enclosures to protect the toes.

9. What do Cisneros, DePrince, and Copeland have in common?

Answer: They provide a more diverse image of what a ballerina looks like.

10. The ballerinas in this image are demonstrating which ballet position?

Answer: En pointe

11. Which sentence best captures Cisneros' feelings about her Hispanic roots?

Answer: "I always felt my Mexican heritage gave me a richer well to draw from, not the opposite."

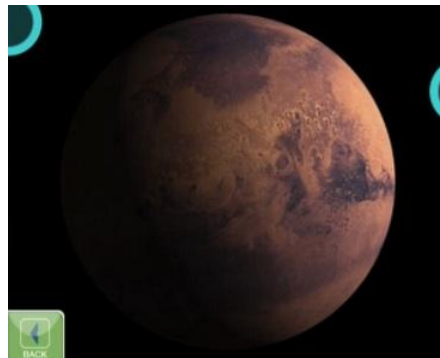

12. What is the tone reflected by DePrince in this excerpt?

Answer: Optimism

13. Choose the sentence in this excerpt that reflects a change in attitude towards ballet

Answer: "Designed as a showcase for Taglioni's talent, it was the first ballet in which dance en pointe had an aesthetic rationale, and was not merely an aerobic stunt that involved ungraceful arm movements and physical exertions."

One-Way Ticket / Mission to Mars / The Red Planet

[Credit for answers: kaybae_95 on Quizlet]

RATE 3 STARS

1. What is the main idea of this selection?

Answer: There are many obstacles to establishing a human colony on Mars.

2. Why does Mars appear red from Earth in the night sky?

Answer: Its surface is covered with iron oxide.

3. What is ultimately the biggest obstacle to a truly livable colony on Mars?

Answer: The lack of a magnetic shield to protect life against solar radiation.

4. Why was former President George Bush's call for a manned mission to Mars considered controversial?

Answer: The mission would add greatly to an already huge national debt.

5. What caused the sense of national urgency to land Americans on the Moon?

Answer: The ideological battle that resulted from the Cold War.

6. In this excerpt, what does the author mean by the phrase "part of human DNA"?

Answer: An innate human desire

7. Which statement supports the author's claim that manned travel to Mars is full of obstacles?

Answer: Manned missions to the moon required just over three days of flight time, while a trip to Mars might take between nine months to a year.

8. How does the author highlight the difficulty of sending humans on a mission to Mars?

Answer: By comparing a manned flight to an unmanned flight

9. What two problems are solved by having visitors to Mars remain to establish a colony rather than attempting a return trip?

Answer:

- Exorbitant cost of fuel and supplies required for a return trip
 - Effect of Earth's gravity following extended periods of weightlessness
-

10. How would this aspect of space travel affect astronauts traveling to Mars?

Answer: It would result in loss of muscle tissue and bone density.

11. Put these events in transforming Mars into a livable environment in the correct order, starting with the earliest.

Answer:

1. Large amounts of greenhouse gases are produced.
 2. Rising temperatures release water stored as ice at the poles.
 3. Rainfall occurs regularly and rivers flow in the planet's surface.
 4. The atmosphere consists of sufficient quantity of breathable air.
-

12. Which phrase describes the author's opinion on establishing a human colony on Mars?

Answer: A possibility in the far future

13. How does the author highlight the difficulty of sending humans on a mission to Mars?

Answer: By comparing a manned...

A Little Brown Bean/Coffee Talk

[Credit for answers: kaybae_95 on Quizlet]

RATE 2 STARS

1. This selection is mainly about coffee and

Answer: How it spread and became popular around the world.

2. How was the earliest coffee different from what people consume today?

Answer: People chewed the coffee berries.

3. Why was coffee transported by groups such as traders, slaves, and pilgrims?

Answer: They moved around frequently and traveled to different places.

4. In this excerpt, what does the phrase "a diplomatic tool" mean?

Answer: Coffee was used to ease negotiations.

5. What does the word "countenance" mean in this excerpt?

Answer: Allow

6. Why were plantation workers paid so poorly?

Answer: Coffee prices were lower than the cost of production.

7. How are robusta beans different from arabica beans?

Answer: They are far easier to grow.

8. Put these countries in order in which coffee made its appearance from first to last.

Answer:

1. Ethiopia

2. Yemen

3. India

4. Java

9. Rival beverage makers said coffee has bad effects probably because

Answer: They were losing money because people preferred coffee.

10. Choose the sentence that best shows why the production of coffee is so inconsistent.

Answer: "One year, a drought might mean a smaller harvest and reduced supply; another year, an abundance of precipitation might mean a glut on the market."

11. What are two health benefits of coffee?

Answer:

- It can reduce the risk of a heart attack
 - It can aid in the prevention of dental cavities.
-

12. Based on this selection, you can tell that the author's opinion on coffee drinking is

Answer: Positive.

13. Gabriel DeClieu was important to the history of coffee because

Answer: He smuggled coffee plants into the new world.

The Music Behind the Business Part 1

[Credit for answers: Dogeythe on Wattpad]

RATE 3 STARS

1. Which sentence from the text best states the central idea of this selection?

Answer: Music, even when you are barely aware of it, can be surprisingly powerful.

Answer: Creating distinct, cohesive musical identities for brands.

3. Rob Wood's company chooses songs for businesses. Clients hire Wood primarily for which two reasons?

Answer:

- To create a certain atmosphere
 - To influence individuals' behavior
-

4. Based on this excerpt, the most helpful characteristic a music consultant can have when creating a musical identity for a business is

Answer: Intuition.

5. Based on what you have read, what is "high dwell time"?

Answer: The practice of keeping customers browsing in a store for as long as possible

6. This excerpt is the opening paragraph of this selection. The author began this selection this way most likely to

Answer: Illustrate how specific the process of linking music to a particular business can be.

7. The approach explained in this excerpt could best be described as a study of human behavior that is based on

Answer: emotion.

8. An analogy is a comparison between two things. Choose the one sentence in this paragraph that uses an analogy to describe Muzak.

Answer: "It's just a kind of amniotic fluid that surrounds us," said a communications professor Gary Gumpert in a 1990 documentary.

9. George Owen Squier developed Muzak. Put these events from his life in the correct order from first to last.

Answer:

1. He served as an officer in the U.S. army.

2. He earned a doctorate in electrical engineering.

3. He developed a new way to transmit sound through wires

4. He created a company that enabled businesses to...

10. Based on this excerpt, which is an example of a physical effect of music?

Answer: A person walking or jogging in time to music

11. At first muzak sold itself on the claim that it could increase productivity. Its program was structured around stimulus progression which was a...

Answer: System from the 1940s that mixed increasingly intense classical music with sections of silence.

12. How did the CD affect background music companies?

Answer: It allowed these companies to devolve digital libraries with specific playlists.

13. Distribution and technology have been major factors in the success of background music mainly because both...

Answer: Allowed businesses to choose and stream music continuously.

When Students Protest

[Credit for answers: Dogeythe on Quizlet]

RATE 3 STARS

1. The central idea of this selection is that the violent outcome of what began as a peaceful anti-war protest

Answer: Increased tensions on U.S. college campuses and raised important questions about the right to protest.

2. Kent state geology professor Gleen Frank is best described as a

Answer: Peacekeeper

3. The items in this image relate to this selection in which one of the following ways

Answer: Allison Krause said flowers were better than bullets.

4. Read this excerpt from the text. In the author's descriptions of the early interactions between student protesters and the Ohio National Guard on May 4, 1970, it seems likely that

Answer: Both parties misread the other's actions.

5. Based on evidence included in this selection, one could reasonably classify the National Guard's crowd control methods as

Answer: Likely use of excessive force.

6. In this selection, President Richard Nixon could best be described as a

Answer: Political flip-flopper

7. In this quote from the selection, the word "blanks" most closely means

Answer: Gun cartridges that contain no bullets but generate explosive sounds

8. Put the following events from the selection in the order in which they occurred in history.

Answer:

1. President Nixon expanded U.S. military presence in Cambodia.
 2. The Ohio National Guard was sent to Kent State University.
 3. Hundreds of students gathered at the Kent State Commons.
 4. Shots fired by the Ohio National guard rang out on the Kent...
-

9. For which likely reason did the author include this excerpt in the selection?

Answer: To illustrate the uncertainties that lie at the heart of an important and tragic historic event

10. What most likely would have happened if students knew the guard member's rifles contained live ammunition?

Answer: The students might have dispersed or at least not confronted the guardsmen returning to the Commons.

I Count Myself Lucky Part 1 / In Their Own Words Part 1

[Credit for answers: Baymax_29 on Quizlet]

RATE 1 STAR

1. The central idea of this text is the 75th anniversary of D-day and the

Answer: Stories of surviving veterans who were there and others who supported this turning point of WWII

2. At the time of the combat and switchboard veterans of D-day were interviewed for this article they were all

Answer: At least 90 years old

3. Based on your answer to the previous question / Based on the ages of the veterans, you can reasonably conclude that the 75th anniversary of D-day

Answer: May have been the last opportunity to pay tribute to the few living veterans who served on D-day

4. This image pictures people enjoying the day at Sword Beach in Normandy. How does it relate to this selection?

Answer: Wireless operator Percy Lewis spent most of D-day at this beach avoiding enemy fire

5. Mick Jennings ferried a tank that carried troops onto the beach where they were open to attack. Despite his bravery, which quote from the text reveals Jennings as humble?

Answer: I'm just one of the thousands who was doing the job you were trained for

6. Which one of these statements best explains what these two excerpts show?

Answer: The author corrected a quote that had incorrectly used a word that expresses a feeling of jubilation

7. What does this passage contribute to the overall text?

Answer: It describes in sharp detail the stark facility where switchboard operators worked and slept

8. Select the sentence that best demonstrates the secrecy of the D-day invasion.

Answer: On their final briefings, he said: "we were told we were going to France, 'and you won't need a passport.'"

9. Which one of the following shows the significance of D-day to World War II?

Answer: The beach landing at Normandy were the largest seaborne attack in military history

10. In this excerpt, the author sets a mood of

Answer: Horror

11. How do these two excerpts connect?

Answer : The second describes a D-day wireless operator who switchboard operators relayed messages to.

12. Based on this excerpt, which two of these statements describe Bill Gladden's flight across the English Channel to Normandy

Answer :

- The glider was designed for heavy cargo and was the first to carry a tank into a battlefield
 - Gladden flew to Normandy on D-day on a glider that was towed by a much smaller plane.
-

13. The genre of this selection is best categorized as

Answer : A series of interviews

14. In this excerpt, Ron Smith describes bread and soup as the "best meal" he's ever had. This reveals his

Answer : Gratitude for being rescued

I Count Myself Lucky Part 2 / In Their Own Words Part 2

[Credit for answers: Baymax_29 on Quizlet]

RATE 1 STAR

1. What is the central idea of this selection?

Answer: Surviving veterans share their accounts of one of the most significant events of the 20th century

2. Which sentence from the text shows how these two excerpts connect?

Answer: If the invasion had gone forward on the original date, it would have failed

3. "Ike" Eisenhower was responsible for deciding the date of the D-day invasion. At this time, Eisenhower was

Answer: A general in the American military

4. The beach master ordered Bill Fitzgerald's unit to "get off this bloody beach." Based on these excerpts, where were they heading?

Answer: Inland to advance into France and capture territory held by Germans

5. In this excerpt, the phrase "gas cape" tells readers that soldiers were protecting themselves from

Answer: Chemical weapons

6. Read this excerpt. The author of this article closes with the quote from Commander Craig Wood to create a sense of

Answer: Reverence

7. Alan Gaudern was born on D-day. What is the significance of this in his life?

Answer: His father was part of the D-day invasion and did not survive the war

8. A maxim is a literary device that is similar to the moral of a folktale. In this excerpt, Commander Craig Wood is using a maxim to

Answer: Warn people that nobody wants the horrors of D-day to be repeated

9. Which two of these statements can you infer based on these two excerpts about Hill 112?

Answer:

- Capturing Caen was a significant victory for the Allied forces.
 - Alan Gaudern visits Hill 112 because his father was killed there
-

10. Bill Gladden survived D-day, and he wants people to remember that "victory didn't come cheap." Select the sentence from this text best reflects this sentiment.

Answer: I feel as though I am passing the legacy of remembrance on to future generations, ensuring that we can always come to these remarkable places to reflect on the courage, sacrifice, and the real cost in human terms that these men and women made to preserve our freedom

11. In William Gauderns last letter to his wife, ... offers a similar sentiment?

Answer : Be a brave lass like you always are.

Genetically Modified Pollinators Part 1/Buzzing Research part 1/Invasion of the ‘Frankenbees’ - Part 1

[Credit for answers: Baymax_29 on Quizlet]

RATE 4 STARS

1. This selection is mainly about the

Answer: Problems and controversies surrounding genetically modified bees

2. Jay Evans, Martin Beye, and Marianne Otte all

Answer: Are scientists who research bees

3. The word "malady" in this sentence is best replaced by the word

Answer: Condition

4. Read this excerpt. When the author says the technology was "in its infancy," it means the technology was

Answer: New

5. Which sentence from the selection provides evidence that outlawing pesticides did not give the results activists had been looking for?

Answer: Since the EU began phasing out neonics in 2014, the honeybees' recovery has not been as dramatic as hoped

6. This selection can best be described as informational nonfiction because it

Answer: Gives facts and details about a specific topic

7. The technique called Crispr-Cas9 allows scientists to

Answer: Inject honeybee embryos with a gene-manipulation solution

8. Besides pesticides, which two of the following threaten bee populations?

Answer:

- Invasive parasites

- Israeli acute paralysis virus

9. Choose the one sentence from this excerpt that shows the effect that clothianidin has on bees

Answer: It muddles the bees' super-acute sense of direction and upsets their feeding habits, while it can alter the queen's reproductive anatomy and sterilize males

10. Beye and Marianne Otte wanted people to understand the purpose of their work was to

Answer: Understand the genetic basis for bee behavior and not to build a pesticide-resistant bee

11. Why did Bayer Crop Science create the pesticide clothianidin?

Answer: To control an outbreak of corn rootworm

12. Genomics is important for scientists, as it allows them to

Answer: Have an understanding of bee health down to the chromosomal level.

13. Read this excerpt. Choose the one sentence that explains how the author was able to view the queen's interaction in the hive.

Answer: The sides were made of a hard plastic for viewing

Genetically Modified Pollinators Part 2/Invasion of the “Frakenbees” **-Part 2**

[Credit for answers: Baymax_29 on Quizlet]

RATE 5 STARS

1. This selection is mostly about the

Answer: Current actions being taken to stop genetically modifying bees

2. Choose the one sentence in this excerpt that supports the claim that Bayer was not completely opposed to listening to Haefeker's point of view

Answer: "However ground down by Haefeker's tireless advocacy for bees may be, Bayer officials told me they largely concur with his view that the industry is beginning to grow less reliant on chemicals, and investing more in big data and tiny robots; they even let Haefer in the building from time to time to discuss that digital future."

3. Read this excerpt. In this excerpt, the word "cavorting" is best defined as

Answer: Actively moving

4. According to the selection, which two areas could be impacted if bees disappear?

Answer:

- Food crops
 - Biofuels
-

5. Read these two excerpts, These excerpts compare

Answer: What bee activity was like before and after neonics

6. Read this excerpt. The author uses the parentheses to

Answer: Give the reader an example

7. Based on the text, which of the following projects using genetically modified insects is being considered by the U.S. Department of Defense?

Answer: Insect Allies

8. This text gives facts and details about genetically modifying honeybees. This text can best be described as a work of

Answer: Nonfiction

9. Based on the text, which two groups were Europe's beekeepers fighting against?

Answer:

- Monsanto

- World Trade Organization

10. One reason beekeepers are against genetically engineering honeybees is because

Answer: It is an area of agriculture that is not managed and owned by anyone

11. Read this excerpt. The author added this note to

Answer: Review information from Part 1

12. Read this excerpt. In this excerpt, the phrase “new kid on the block” means

Answer: someone who has recently joined a particular group

Daydreaming/Quit Paying Attention

[Picture description: Shows an image of a boy looking up]

[Credit to quizlette50732224 on Quizlet]

1. What's the main idea of the section:

Answer: daydreams increase creativity

2. Based on what you have read the activity

Answer: has difficulty focusing

3. Read this excerpt based on what you have read

Answer: In the middle of daydreaming

4. Choose the sentence in this excerpt that supports the claim ...

Answer: "It would also be harder to avoid

5. The author states

Answer: humorous

6. This text is best described as

Answer: expository text

7. The author states that the sampling method

Answer: the results of the test might not be accurate

8. Read these two excerpts
